3. Staff Officers

Group executive officer  Maj. R. E. COOPER  1-28 Feb69
S-1/Adm  CWO-2 R. E. FAUST JR.  1-28 Feb69
S-3  Maj. J. C. WILSON  1-28 Feb69
S-4  CWO-2 R. A. GREER  1-28 Feb69
PART II
NARRATIVE SUMMARY
COMMAND, OPERATIONS, AND TRAINING

The programmed expansion of 4th CAG during early February was completed with the input of 62 personnel from CAP School and the assets made available by the deactivation of CAP 4-2-2. The newly assigned personnel completed orientation training at 4th CAG headquarters on 2 Feb 1969. The following CAPs were activated:

<table>

As programmed, CAP 4-2-2 was deactivated on 9 February with the activation of CAP 4-1-7. Although the initial plans called for PF Platoon 32 to continue to occupy the compound vacated by the Marine element of the CAP, the Trieu Phong District Chief decided that a mobile PF platoon would be more effective in dealing with the infiltration of small VC elements which move regularly across Route 1 from west to east. The compound was dismantled and salvagable materials returned to 4th CAG following deactivation. CAP 4-1-7 was activated as a compound CAP but the concept of actual employment is that of a mobile CAP. A minimal force remains in the compound and the majority of the CAP is deployed in adjacent hamlets on two to three day patrols. This mode of operation reduces the tendency to become tied to a fixed base and brings the CAP into alignment with its mission of providing hamlet security.

By mid-month the posture of 4th CAG was 16 mobile CAPs, two compound CAPs, and one Mobile Training Team. Additionally, operational control continued over three rifle squads from 2d Battalion, Third Marines. One of these squads continued to augment CAP 4-2-6 in Nhu Le Hamlet, Mai Linh District. The remaining two operated with PF platoon 114 and 80 in Dong Ha District. It is anticipated that these three squads will be withdrawn by the CG, 3d Marine Division as the post-TET threat diminishes in Quang Tri. On 20 February CG 3d Marine Division commenced planning to readjust forces and withdraw 2d Battalion, Third Marines from the Cam Lo and Huong Hoa (Cuu) Districts where they had been working with the territorial forces in a pacification role. The lack of American presence that this move would create in these two contested population centers was of concern to the Division and Province officials. In short, an ideal environment for CAPs was created. During the period 22 to 26 February, liaison was made with
the District Chiefs or their staffs in Cam Lo, Dong Ha, Hai Lang and Trieu Phong Districts to evaluate the pacification program at present CAP locations, evaluate possible new CAP locations, and to project a priority for future moves. Based on these discussions CO 4th CAG recommended to the Province Chief and CS III MAF that the following immediate moves be made with present assets:

(1) CAP 4-3-8 from Ha Tay (YD 338667), Trieu Phong District to the An Thai/Bac Binh complex (YD 132608), Cam Lo District.

(2) CAP 4-2-4 from Tram Ly/Dai Nai (YD 370530), Mai Linh District to Rich Giang (YD 167604), Cam Lo District. This CAP will eventually shift to Lam Lang (YD 184605) when the Cam Vu resettlement project in Cam Lo District commences in late March.

(3) Mobile Training Team to Cam Lo Resettlement Village (YD 105575) from Hai Lang District to work with the seven PF platoons in the village.

Additional internal adjustments which can be completed within the next 30 days were discussed with interested parties and the following tentative schedule was formulated:

(1) CAP 4-3-6 from Vinh Lai (YD 326637), Trieu Phong District, to Le Xuyen (1) (YD 355615), Trieu Phong District.

(2) CAP 4-3-2 from Van Hoa (YD 350600), Trieu Phong District, to area immediately east of its present area of coordination.

(3) CAP 4-2-7 from Tra Log (YD 390535), Hai Lang District, to La Duy (YD 317544), Hai Lang District.

(4) CAP 4-1-4 from Kim Dau (YD 230630), Dong Ha District, to Cam Vu (YD 183616), Dong Ha District when Cam Vu resettlement project begins. See Supporting Documents in Part IV.

Some explanation of rationale behind the proposed plans is probably desirable. Force Order 3121.43 sets forth specific characteristics that must be met to establish or move a CAP. Quang Tri Province has 124 Popular Force platoons activated at the present time. It is estimated that some 75 to 80 of these meet the prescribed characteristics for a Combined Action Platoon at the present time. CAPs could be gainfully employed at any of them. The question of priorities among these choices and the determination of whether or not the existing needs justify a request for additional Marine assets with which to form new CAPs must be based primarily on an analysis of Province wide objectives and resources. 4th CAG has tried to consistently select CAP sites that contribute most to the principal projects underway in Quang Tri Province. Since October, several patterns illustrating this approach have been apparent.
(a) In 1968, the heart of the priority pacification area in Quang Tri was around Quang Tri City. CAPs formed a rough circle around the fringe of this area and served as a buffer to protect it and the RD teams from the less pacified areas. As pacification progressed, this circle shifted – most notably in Trieu Phong District – and the CAPs then formed a buffer separating the priority area from the "Street Without Joy" to the east.

- CAPs 4-3-4 and later CAPs 4-3-5 and 4-2-7 were located near Route 555. By enhancing the security of this area, they provided support for the Gia Lang resettlement project.

- CAPs 4-1-5 and 4-1-8 are positioned to support the Cam Vu resettlement project scheduled to begin in March as are two of the future sites now identified as "critical needs".

- CAP 4-2-1 and 4-1-7 are situated astride principal avenues of infiltration.

- Several CAPs – 4-1-4, 4-2-3, 4-2-6, 4-3-3, 4-3-5, and others – are located in priority hamlets targeted under the Accelerated Pacification Campaign (Nov 68 – Jan 69) or the 1969 Pacification Campaign.

- Needs identified in the Cam Lo and Anh Loa (Cuu) areas are not new. During the lull in combat operations in late 1968, the 3d Marine Division had assets available to devote to the pacification effort. Now the reduction of forces available within the Division AO and the increasing tempo of combat has forced the withdrawal of these pacification assets and requires the reallocation of those remaining to fill part of the void.

Mid-February brought the deployment of Revolutionary Development cadre into the contested fringes of the pacified areas in accordance with the two phase 1969 Pacification Plan for Quang Tri Province. The teams were split into two 30 man teams from the original 59 man team which in effect doubled the number of teams available for deployment. The following RD teams were employed in CAP AOcs by the end of February:

In coordination with the Province RD Advisor, the CACO commanders are serving as overseers for the RD effort in CAP hamlets. The goal of integrated military and Civic Action programs within each area of coordination is a reality at this time in some CAPs. Specifically, we are striving for mutual planning, integrated patrolling and security efforts, a complete and timely exchange of intelligence, joint psychological warfare campaigns, and coordinated civic action projects. To date we have encountered no serious problems. While we cannot claim that anything like full and effective integration is yet a reality, we are moving toward this goal and expect significant progress during March. See Supporting Documents in Part IV.

The training of the Popular Forces continued to receive major emphasis during the month. The technique of providing formal instruction from the CAG Headquarters and emphasizing on-the-job training by the CAP Marines continued to prove sound. The five-phase progressive marksmanship training course for each CAP continued at a rapid tempo during February. Four range facilities were utilized to implement the program: Dong Ha Combat Base, Quang Tri Combat Base, Hai Lang Range (YD 401487), and the Wunder Beach Range (YD 487570). During the month, 36 phases of firing were completed by the 18 CAPs.

The Têt PSYOPS campaign continued as a viable program based on 4th CAG PSYOPS Order 1-69. Over 50 Vietnamese identified by District and village officials as the families of Viet Cong or NVA were hosted at the Quang Tri Chieu Hoi Center during four pre-Têt visitations. (See pictures in Part IV). During the visits, Armed Propaganda Teams led group discussions, nationalistic movies were shown, the Chieu Hoi Program was explained by the Center Chief and recent ralliers, and propaganda materials were distributed. The food for a noon meal was provided by 4th CAG and prepared by the Hoi Chans at the center.

A sound and movie van provided by the 3d Marine Division was employed in three CACO 4-1 hamlets during the month. Over 1250 villagers viewed the films. Themes during these showings included personal hygiene, GVN services for the people, Chieu Hoi program benefits, community sanitation, advancements in indigenous culinary techniques, and Walt Disney cartoons. Plans for March provide for increased employment of this popular PSYOPS tool.

Results of the PSYOPS effort for the month were:

- Posters Distributed: 1782
Leaflets Distributed: 28,490
APT Employment Hours: 156
Ordnance Items Turned In: 1181
VIP Funds Expended: 14,650 $VN
Newspapers Distributed: 7,300
Movie Van Employment: 9 hours

CACO 4-1 continued improvement of their CP at Dong Ha District Headquarters. An additional SBA hut and a dry ration storage facility were constructed. The galley facility was improved with the addition of screening and fly proof storage shelves. The company continued to operate with two augmentation squads provided by the 3d Marine Division. These squads were employed with PF Platoons in high threat hamlets integrated with PF platoons.

Significant contacts and operations for the month were:

(1) On 012100H Feb 69, a night activity from CAP 4-1-5 triggered an ambush at YD 224616 when an undetermined number of enemy entered the killing zone. The area was illuminated by CAP 4-1-4 which formed a reaction force to assist in exploiting the contact. Three VC were KIA, one AK-47 captured and one PF WIA(3). On 20 February the Dong Ha District Chief presented PF Platoon B2 (CAP 4-1-5) with a meritorious unit award for the successful contact.

(2) On 072145H Feb 69, CAP 4-1-6 fired small arms, grenades, and claymore mines at 35 to 40 VC at YD 275605. A short exchange of fire followed. The area was illuminated and assaulted but the VC broke contact. A reaction force from CACO 4-1 Headquarters arrived at 2210 hours to coordinate blocking and maneuver elements of the augmentation squad designated as 4-1-3, 4-1-6, adjacent PF platoons and one U. S. Army company. Searches continued through 9 Feb 69 resulting in the apprehension of one VC squad leader, two VC nurses, one dRVN deserter, one draft dodger, and the discovery of a 75 pound cache of assorted medical supplies.

(3) On 190745H Feb 69, the hamlet chief of Truc Khe reported to CAP 4-1-4 that one NVA was sleeping in a villager's home at YD 225653. A patrol was dispatched which fired small arms as the NVA attempted to flee. He was apprehended with his equipment and delivered to Dong Ha District Headquarters.

(4) On 212130H Feb 69, an estimated 30 VC were taken under fire by an ambush activity from CAP 4-1-6 at YD 265384. A reaction force from 4-1 Headquarters, CAP 4-1-7 and two tanks maneuvered to the west after the VC had broken contact. Artillery was fired on escape routes, the area was illuminated and the reaction force maneuvered to intercept the enemy. A thorough search resulted in two VC KIA and two AK-47's located at the point of initial contact.
(5) On 282240H Feb69, a small ambush from CAP 4-1-7, in position at YD 284562, fired upon a squad of VC. Three VC were observed to fall during the fire fight and a fourth, wearing a white undershirt, was hit several times as he crawled into the brush. The ambush attempted to withdraw but received fire from three different directions. A reaction force from CACO headquarters and 4th CAG Headquarters, with two tanks, moved to the ambush site maneuvering through thick brush and hedgerows to block escape routes. A search located one VC KIA, numerous blood trails, and bloody bandages, one AK-47 rifle, one 60mm mortar base plate, four 60mm mortar rounds, three AK-47 magazines, two cartridge belts, a woman's bloody brassiere, 500 plasters and 10 Dong NVA money. Another thorough search at first light on 1 March locating more blood, four additional mortar rounds, and assorted enemy 782 gear.

CACO 4-2 continued operations in Mai Linh and Hai Lang Districts. Integration of the CAP and RD Teams in the two districts received major emphasis during the month. Significant contacts and operations for the month were:

(1) On 152200H Feb69, a CAP 4-2-1 ambush fired small arms at three VC and received one burst from an AK-47 in return at YD 378502. Following a negative search a second ambush site was established where the CAP received several incoming small arms rounds from an unknown number of VC. The CAP activity maneuvered to the edge of a village where 3 VCS were intercepted as they approached the activity.

(2) On 272130H Feb69, a CAP 4-2-6 ambush patrol took one VC under fire from their position at YD 313476. The VC was seen running into a house at YD 313476. A search of the hamlet was made and two VCS were apprehended and turned over to Mai Linh District Headquarters.

CACO 4-3 continued operations in Trieu Phong District during the month. CACO Headquarters personnel prepared to integrate their tactical operations Control Center with the District Advisory Team TCC. The liaison and planning necessary for the activation of three new CAPs in Trieu Phong was the primary concern of the CACO during the month. Significant contacts and operations during the period were:

(1) On 062225H Feb69, an ambush from 4-3-3 fired about 100 small arms rounds at three VC in a boat at YD 362576. The boat appeared to have been hit several times but disappeared into the darkness.

(2) On 100200H Feb69, elements from CAP 4-3-5 fired small arms on one VC moving west from YD 360546. The VC was KIA and a caliber .45 pistol recovered from his body.

(3) On 190800H Feb69, while on patrol, PF platoon 118 made contact with ten VC at YD 341662. A short fire fight resulted in two VC KIA. CAP 4-3-8 dispatched a reaction force which linked up with the PF platoon. The combined force captured the remaining eight VC with five AK-47's. One
CAP Marine was presented with a Vietnamese Cross of Gallantry with Bronze Star by the Province Chief on 20 February for his part in the action.

(4) On 241200H Feb 69, while on a combined sweep at YD 368608, CAP 4-3-2 captured one SKS, one 82mm mortar tube, one 60mm mortar, and one VC POW. Prisoner and weapons were turned over to the Trieu Phong District Headquarters.

(5) On 282115H Feb 69, an ambush patrol from CAP 4-3-7 was taken under fire by the VC at YD 344633 with automatic weapons and two hand grenades. The patrol returned a heavy volume of small arms fire and contact was immediately broken. The area of contact was swept under illumination by the patrol and a reaction force from the night CP. One enemy blood trail was found and one Vietnamese family of two women and three children were liberated from a bunker where they had been held hostage for two hours by six VC.

The Mobile Training Team continued its operations in Hai Lang District. On 2 February, training was completed with PF platoon 8 in the hamlet of Cu Hoan (YD 417487). From 10 to 28 February, the team trained PF platoon 9, in An Mon Village (YD 455475). One significant find was made by MTT.

On 23 Feb 1969, an integrated patrol of the MTT, PF, and U. S. Army personnel located a suspicious foundation under a house in an abandoned village at YD 463486. The owner was contacted but could not offer an explanation for the unusual construction. A shape charge was employed to explore the foundation after extensive probing. The crater revealed a rice cache of 2000 pounds. 700 pounds were spoiled and destroyed. The remaining 1300 pounds were evacuated to District Headquarters. The owner of the house was then apprehended as a VCS.

Operational methods for the MTT remained unchanged. Formal training is supplemented by on-the-job training in the form of integrated day and night activities. Total training and operational accomplishments for MTT during February were:

- Day Patrols: 9
- Night Patrols: 9
- Night Ambushes: 18
- Live Range Firing: 2 days
- Formal Instruction: 15 hours

A 4th Combined Action Group Change of Command ceremony was held on 27 Feb 1969 when LtCol. Daniel J. FORD relieved LtCol. John E. GREENWOOD as Commanding Officer. Copies of the guest list and the departing remarks of the former Commanding Officer are contained in Part IV.
PERSONNEL AND ADMINISTRATION

PERSONNEL. There continues to be a shortage of 3041 sergeants and below.

ADMINISTRATION. Proposed changes to our T/O P-4911 and P-4912 were sub-mitted increasing our T/O strength as follows:

Add:
1, Lt, Executive Officer for each CACO
1, SSgt, Training NCO for each CACO
2, LCpl, 2531 Field Radio Operators to each CACO
1, Lt, 0302 Assistant Training/Intelligence NCO to the CAG Headquarters
3, LCpl/PFC, 2531 Field Radio Operators to the CAG Headquarters
1, Cpl/LCpl, 2841 Radio Repair Technician to the CAG Headquarters
3, Pvt, 3531 Motor Vehicle Operator to the CAG Headquarters
1, HN Medical Field Service Technician to the CAG Headquarters

Change:
1, GySgt, 2595 Operation Communications Chief to 1, GySgt Radio Chief 2539

The above changes were considered urgent and of such significance that without immediate relief our present mission could be affected.

PROMOTIONS. The following promotions were effected:

To LCpl 12
To Cpl 3 (2 meritorious)
To Sgt 1 (meritorious)
To SSgt 1
To GySgt 1

MEDICAL

The Naval Hospital Corpsman attached to the 4th Combined Action Group conducted a MELCAP program during the month which reached 10,033 Vietnamese civilians. At present there are eighteen CAFs and one Mobile Training Team in the field. Seventeen CAFs and the MTT have a Naval Hospital Corpsman serving with them. By virtue of our decentralized mode of operation, the Corpsman has greater responsibilities than those assigned the average Corpsman. One of these responsibilities is to support the local health officials in the care and treatment of Vietnamese civilians. The 4th CAG has found that to work with these officials takes a great deal of patience and tact. It is difficult to accept their rather primitive techniques and their apparent lack of interest in the betterment of village conditions. However, as rapport develops between the Corpsman and his counterpart, it becomes apparent that what appeared to be primitive technique and apathy is really a lack of assets, education and the traditional Vietnamese ability to be happy and have a good time regardless of the environment. To evaluate this situation correctly, a mature, perspicacious Corpsman is necessary. It is not in the American tradition to accept slow progress, however, in the process of creating change, we must not be impetuous and shortsighted. What we are after is long-term upgrading that will continue when we depart. To accomplish this end, the Corpsman must accept the apparent shortcomings and work to reinforce the local health worker, not supplant him or his program.

In many hamlets there are no local health officials present. This facilitates the establishment of programs but the challenge of stimulating interest and attempting to get the Vietnamese to help themselves is more difficult. Acceptance of filth, reluctance to be treated by a MELCAP and hygienic apathy are typical in these hamlets. Here again, the development of rapport and the upgrading of conditions is a long-term project. The ideal situation is to locate an enthusiastic Vietnamese who is motivated to train as an assistant medical worker who may eventually assume the full responsibility as Village Health Official.

The training level of the newly assigned Corpsman remains high. A highly motivated individual that can cope with the challenges described above is necessary for the successful accomplishment of our mission.

The treatment of 264 military patients during the month at the Group Sick Bay represents no significant change from previous months. No significant trends were noted. A general medical classification of infirmities follows:

SUPPLY/LOGISTICS

The shortage of certain major T/E items of equipment continues to be critical. Two P4482 generators are authorized by T/E. Only one of these generators has been received. It has been on deadline since 1 January 1969 when it was turned in to FLG-3 for repairs. Subsequently, during February it was evacuated to 3d Force Service Regiment. The second generator has been on priority 02 requisition since 27 July 1968 and the last known holder of the requisition was the Marine Corps Supply Activity, Philadelphia. A follow-up message to check the status was sent 4 January 1969. To date no reply has been received. On 8 February a MARES Reporting Card (GA) was submitted and its status is still pending. The Group Headquarters has a requirement for continuous electric power supply in order to provide the necessary operational, administrative and logistical control of the units in the field dispersed throughout Quang Tri Province. The current power supply is provided from a generator that is on temporary loan from Mobile Construction Battalion 7. Other major items of T/E equipment that continue to be critical are four M-107 water trailers. These water trailers have been on priority 02 requisition since July and are urgently needed to support the CACOs and CAPs. The latest status held indicates that the items are being procured for direct delivery. A MARES Reporting Card was submitted on 8 February 1969 reflecting the status of these trailers. In addition, a M-51 ½ ton truck was designated as Case H due to a faulty engine and a replacement has been placed on a priority 02 requisition.

A quarterly PM was performed on each vehicle during the month of February. One M-37 3/4 ton truck and M-151 1/2 ton truck were turned in to FLG-3 for engine and body repairs and engine repairs respectively. The M-37 was evacuated to FLG for 4th echelon repair. Vehicle mileage for the month of February was 5,224 miles. Shortages of spare parts continue to exist although the problem is not considered critical at this time.

Approval was obtained for construction of nine new SEA huts and the project was assigned to MCB 128. The construction of two huts had been completed by 27 February 1969. The remaining seven huts should be completed during the next month.

There was a shortage of claymore mines, AP ML8A1, and 40mm illum during the middle of the month. The Ammunition Supply Point at Quang Tri now has an adequate supply of these two items. The ordnance NCO conducted an informal review of ammo procedures and allowances for the Ammo NCO of each CAP.
CIVIC ACTION

All CAPs and the Mobile Training Team participated in civic action projects including over 10,000 medical treatments, over 160 dental treatments, distribution of 2,600 pounds of foodstuffs, 68 pounds of clothing, 351 pounds of soap, 365 school kits, and 4,000 toys plus candy and cookies to the children for TET. In addition 10 health workers were trained and 114 English language classes were conducted with 750 people attending.

The following projects were completed:

The Six Month Project Plan which lists the significant projects in each District to be undertaken during the next six month period was formulated and submitted by each Combined Action Company commander. This plan has proven to be the nucleus of the Civic Action Program and serves a two-fold purpose: (1) It addresses problem of priority and competing interests; (2) It allows lead time for planning and procurement of materials on a timely basis. In addition, projects are initiated to supplement or complement the plan based on the needs and desires of the people.

The dental program continued with DENTCAPs being conducted in Dong Ha, Trieu Phong and Mai Linh Districts. The MEDCAP and DENTCAP continued to be a good cornerstone of the civic action program. A good example of this is the significant increase in the number of treatments at the scheduled MEDCAP in Nhu Le since the hamlet chief and two Vietnamese nurses have been assisting. The villagers in Nhu Le had been noncommittal to the CAP and RD team previously. Subsequently, the local people have turned out to clear bamboo thickets and hedge rows that were once VC havens. The dental program was suspended during TET and the post TET period but will be activated again next month. In general progress was slow on civic action projects during the TET celebrations and have not regained their momentum.

The month was highlighted with numerous TET and post TET celebrations in all areas. CAP members participated with the local villagers in these festivities and distributed 200 bags of food, approximately 2,000 pounds, to poor families through the village and hamlet chiefs. In conjunction with this, 4,000 toys, plus candy and cookies were presented for the children. Additionally, in Dong Ha District the Marines contributed 3,000 VND for TET envelopes that were presented to the children in the hamlet that are in the CAP’s area of coordination. Through these mutual showing of efforts a closer relationship exists between CAP members and local civilians.
PART III

SEQUENTIAL LISTING OF SIGNIFICANT EVENTS

On 1 Feb 1969, CAP 4-3-5 was activated in the village of Tham Trieu (YD 370552) in Trieu Phong District. CAP will work with PF platoon 53.

012100H Feb69. A night activity from CAP 4-1-5 triggered an ambush at YD 224616 when an undetermined number of enemy entered the killing zone. The area was illuminated by CAP 4-1-4 which formed a reaction force to assist in exploiting the contact. Three VC KIA, one captured AK-47, and one PF WIA(5) resulted from the contact. On 20 February the Dong Ha District Chief presented PF platoon 82 (CAP 4-1-5) with a meritorious unit award for the successful contact.

On 2 Feb 1969, MTT 4-1 completed a two week training cycle with PF platoon 8 at YD 425490 in the village of Cu Hoan in Hai Lang District.

On 2 Feb 1969, CAP 4-1-8 was activated as a mobile CAP. CAP will work with PF platoon 77 in the hamlet of An Binh in Dong Ha District (YD 207627).

031100H Feb69. CAP 4-1-4, acting as part of a larger sweep force, located twenty reinforced rock and bamboo bunkers in grids YD 1961 and 2062. Each bunker was capable of housing two to four men. Approximately 100 fighting holes supported the bunkers. Warm rice and other signs indicated recent occupancy by about 25 VC. The bunkers and fighting holes were destroyed.

On 3 Feb 1969, CAP 4-2-8 was activated as a mobile CAP. CAP will work with PF platoon 18 at YD 393475 in Mai Linh District.

On 3 Feb 1969, CAP 4-3-7 was activated as a mobile CAP. CAP will work with PF platoon 26 at YD 340633 in Trieu Phong District.

032000H Feb69. CAP 4-2-2, at YD 277577, fired small arms upon VC moving from east to west across Highway #1. A fifteen minute firefight followed. The area was illuminated and swept with negative results.

On 5 Feb 1969, CAP 4-3-8 was activated as a mobile CAP. CAP will work with PF platoon 52 in the hamlet of Xom Dong YD 338667 in Trieu Phong District.

062225H Feb69. An ambush from CAP 4-3-3 fired small arms at three VC in a boat at YD 362576. The boat appeared to have been hit several times but disappeared into the darkness.

072145H Feb69. CAP 4-1-6 fired small arms, grenades, and claymore mines at 35 to 40 VC at YD 275605. A short firefight followed. The area was illuminated and assaulted but the VC broke contact. A reaction force
from GACO 4-1 Headquarters arrived at 2210 hours to coordinate blocking and maneuver elements of CAPs 4-1-3, 4-1-6, adjacent PF platoons and one U.S. Army company. The search continued through 9 Feb 1969 resulting in the apprehension of one VC squad leader, two VC nurses, one ARVN deserter, one draft dodger, and the discovery of a 75 pound cache of assorted medical supplies.

On 9 Feb 1969, CAP 4-1-7 was activated as a compound CAP. CAP will work with PF platoon 31 at YD 287497 in Trieu Phong District.

On 9 Feb 1969, PF platoon 58 was assigned by Mai Linh District Headquarters to work with CAP 4-2-1 at YD 371497. Reason for change: Old PF platoon 67 which was with CAP 4-2-1 was reassigned as security platoon for District Headquarters.

On 9 Feb 1969, CAP 4-2-2 at YD 276576 was deactivated as a compound CAP. CAP USMC personnel were reassigned as replacements with other CAPs.

On 10 Feb 1969, MTT 4-1 commenced a two week training cycle with PF platoon 9 at YD 455475 in Hai Lang District.

100200H Feb 69. Element from CAP 4-3-5 fired small arms on one VC moving west from YD 360348. Contact resulted in one VC KIA and one Caliber .45 pistol captured.

120800H Feb 69. Local Revolutionary Development Teams reported to CAP 4-1-7 that one squad of VC were observed in Phouc My Hamlet (YD 293573) at 120200H. At daylight approximately 400 National Liberation Front propaganda leaflets were found spread on the trail at YD 290572. Presumably these had been left by the VC squad. The leaflets were policed up and samples forwarded to III MAF.

142315 Feb 69. CAP 4-1-6 fired small arms, one claymore and threw two grenades at seven or eight VC moving northeast at YD 273613. Reaction force from CAP swept area under illumination with negative results.

142345H Feb 69. While investigating inordinate movement in Mai Dang Hamlet, CAP 4-2-8 was fired upon by four AK-47's, carbines, and one light machine gun from across a river at YD 389479. The CAP returned small arms, illuminated and contact was broken.

152200H Feb 69. A CAP 4-2-1 ambush fired small arms at three VC and received one burst from an AK-47 and return at YD 378502. Following a negative search, a second ambush site was established where the CAP received several incoming small arms rounds from an unknown number of VC. The CAP activity swept the area capturing three VC.

152230H Feb 69. CAP 4-3-2, at YD 357597, saw lights and heard movement across a river at YD 359599. Illumination was fired and the activity
fired several probing rounds. Immediately the VC returned 20 small arms rounds and five recoilless rifle rounds. Artillery was called and area observed for remainder of night. A followup search on 16 February yielded negative results.

160730H Feb69. A patrol from CAP 4-1-7 and members of an RD Team policed up 30 National Liberation Front propaganda leaflets at YD 283570.

162100H Feb69. MIT #1 sighted an unknown number of VC at YD 460480. Artillery mission fired and the area swept on 17 February yielding blood pools and hair.

180200H Feb69. CAP 4-1-6 participated in a sweep as a blocking force at YD 303587. The CAP made negative contact with an estimated enemy squad which had probed the lines of Quang Tri Combat Base.

190745H Feb69. The hamlet chief of Truc Khe reported to CAP 4-1-4 that one NVA was sleeping in a villager's house at YD 223553. A patrol was dispatched which fired small arms as the NVA attempted to flee. He was apprehended with his equipment.

190800H Feb69. While on patrol, FF platoon 118 made contact with ten VC at YD 341662. A short firefight resulted in two VC KIA. CAP 4-3-8 dispatched a reaction force which linked up with the FF platoon. The combined force captured the remaining eight VC and five AK-47's. One CAP Marine was presented with a Vietnamese Cross of Gallantry with Bronze Star by the Province Chief on 20 February for his part in the action.

192045H Feb69. A CAP 4-2-8 activity fired upon seven VC at YD 383472. An exchange of fire resulted and the VC fled to the east. A sweep of the area under illumination yielded negative results.

200230H Feb69. A CAP 4-3-7 patrol was taken under small arms fire by a 10 to 15 man enemy force at YD 335626. The patrol and a reaction force from CAP Headquarters maneuvered to make contact, received one incoming N-79 round, but could not renew contact. A sweep of the area at first light yielded negative results.

201915H Feb69. A CAP 4-3-2 patrol fired small arms on two VC across a river at YD 353607. A short firefight followed and the VC broke contact disappearing into a treeline. A search at first light yielded negative results.

212130H Feb69. An estimated 30 VC were taken under fire by an ambush activity from CAP 4-1-6 at YD 265584. A reaction force from 4-1 Headquarters, CAP 4-1-7 and two tanks maneuvered to the west after the VC had broken contact. Artillery was fired on escape routes. The area was illuminated and thoroughly searched resulting in two VC KIAs and two AK-47's which were located at the point of initial contact.
22130H Feb 69. A patrol from CAP 4-3-7 attempted to check the identification of two Vietnamese observed in the coastal sand dunes at YD 345637. The Vietnamese threw a hand grenade at the patrol and escaped into a tree-line. A follow-up search netted negative results. 1 USMC WIA.

231030H Feb 69. An integrated patrol of MTT #1, PF and U.S. Army personnel located a suspicious foundation under a house in an abandoned village at YD 463486. The owner was contacted but could offer no explanation for the unusual construction. A shape charge was employed to explore the foundation after extensive probing. The crater revealed a rice cache of 2000 pounds. The owner of the house was apprehended as a VC.

232045H Feb 69. A patrol from CAP 4-1-4, departing an ambush site at YD 237674 received one incoming hand grenade. The area was immediately searched by the patrol and a reaction force from CAP Headquarters maneuvered to intercept the VC. A single set of footprints were found leading from the scene but contact could not be reestablished. 1 USMC WIA.

240215H Feb 69. An ambush from CAP 4-1-7 received two incoming hand grenades at YD 293564. The activity deployed and maneuvered conducting a search but was unable to reestablish contact with the VC. 1 USN WIA (MedEvac)

241200H Feb 69. While on a combined sweep at YD 368608, CAP 4-3-2 captured one SKS, one 82mm mortar tube, one 60mm mortar, and one VC POW. The prisoner and weapons were turned over to Trieu Phong District Headquarters.

241600H Feb 69. A patrol from CAP 4-2-8 found and destroyed one freshly dug enemy bunker at YD 387468.

242000H Feb 69. An ambush patrol from CAP 4-1-7 received one incoming enemy hand grenade and one short burst of AK-47 rifle fire into their ambush site at YD 282565. The patrol immediately returned fire and made a sweep of the area. Blood trails and one bloody battle dressing were found at first light.

242023H Feb 69. While in their night CP, CAP 4-2-8 received approximately five rounds of sniper fire from YD 386474. The CAP immediately returned fire and swept the area but could not establish contact with the enemy.

251000H Feb 69. While conducting a search operation, CAP 4-2-6 found and destroyed one 4'x6'x4' bunker, reinforced with steel casings at YD 305479.

262115H Feb 69. An ambush patrol from CAP 4-1-7 made contact with an estimated five VC at YD 293563. The fire fight lasted approximately five minutes with an exchange of small arms fire. As contact was broken, artillery was fired on escape routes. The area was searched with no significant findings. At first light the area was again searched and no indications of the enemy were found.
272130H Feb 69. A CAP 1-2-6 ambush patrol took one VC under fire at YD 313476 with small arms. A search of the area was made and two VCS were apprehended and turned over to Mai Linh District Headquarters.

272205H Feb 69. An element of MTT 1-1 sighted four VC at YD 453483. The enemy was brought under fire with small arms by MTT and return small arms fire was received. The area was searched under illumination after contact was broken and again at first light with negative results.

On 28 Feb 1969, MTT 1-1 completed a two week training cycle with PF platoon 9 at YD 455475 in Hai Lang District.

282240H Feb 69. A small ambush from CAP 1-1-7, in position at YD 284562, fired upon a squad of VC. Three VC were observed to fall and not move during the fire fight and a fourth wearing a white undershirt was hit several times as he crawled into the brush. The ambush attempted to withdraw but received fire from three different directions. A reaction force from CACO Headquarters and 4th CAG Headquarters, with two tanks, moved to the ambush site. A sweep of the area located one VC KIA, numerous blood trails and bloody bandages, one AK-47 rifle, one 60mm mortar base plate, four 60mm mortar rounds, three AK-47 magazines, two cartridge belts, a woman's bloody brassiere, 500 piasters and 10 Dong NVA money. Another thorough search at first light on 1 March located more blood, four additional 60mm mortar rounds and assorted enemy 782 gear.

282115H Feb 69. One ambush patrol from CAP 1-3-7 was taken under fire by the VC at YD 344633 with automatic weapons and two hand grenades. The patrol returned a heavy volume of small arms fire and contact was immediately broken. The area of contact was swept under illumination by the patrol and a reaction force from CAP Headquarters. One enemy blood trail was found and one Vietnamese family which had been held hostage in a bunker by the VC.

(c) For0 3121.43

1. Reference (a) requested assignment of 12 new CAP's to 4th Combined Action Group to meet the needs of Quang Tri Province. This request was approved and, during January 1969, assets were made available for 6 of the 12 proposed sites. CG, ICTZ, however, asked in reference (b) that a decision on the relocation of other assets be delayed until after the Tet period due to the tactical situation in the Danang area. Two recent developments in Quang Tri Province have now forced an overall reevaluation of the need for CAP resources.

   a. On 18 February 1969, CG, 3d Marine Division directed that elements of 2d Battalion, 3d Marines begin phasing out of the Cam Lo and Huong Ha (Chua) areas where they have been supporting RF/PF elements since last November. As was anticipated in reference (a), this move leaves a void in the two Districts and makes necessary a realignment of CAPs throughout the Province.

   b. The second development is the formulation of the new 1969 Pacification Plan. The present draft of this plan identified 62 hamlets that are to be given priority attention during the first five-month phase. Province has examined the resources available and has tentatively programmed a series of moves for RD, PF, RF and CAP elements to best support the new plan while maintaining the gains achieved by earlier pacification efforts.

2. This reevaluation has now been completed with CG, 3d Marine Division, the Quang Tri Province Chief, the Province Senior Advisor, and CO, 4th Combined Action Group concurring that CAPs are needed critically at the following sites:

<table>

</tbody>
</table>

* Two CAPs desired at each of these locations.

3. At present it appears that there are six CAPs in 4th CAG that can be moved within the next 30-45 days to meet these needs. It is considered that progress in the training of PF elements and in hamlet pacification will justify relocating the Marine elements from CAPs 4-1-4, 4-2-4, 4-2-7, 4-3-2, and 4-3-6. Additionally, because of proximity of other force, it is considered feasible to move 4-3-8. Obviously these adjustments would meet only a fraction of the total need outlined above, the remaining need cannot be met by assets now available to 4th CAG. An increase of 10 CAPs above the present manning level - for a total of 28 in 4th CAG - would be required to satisfy the existing requirement. This figure represents an increase of 4 CAPs beyond the level authorized in December 1968.

4. Approval of all, or any part, of the proposed expansion outlined above would increase the burden on the command and control facilities presently assigned 4th CAG. Thirteen of the proposed sites lie in Districts which lack parallel CACO Headquarters. CACO 4-2 at the Hai Linh District Headquarters already has CAPs in Hai Lang and Hai Linh Districts. While it has coordinated with both Districts satisfactorily thus far, such dual responsibilities are not desirable over the long term. It is envisioned that at an absolute minimum, a new CACO Headquarters should be assigned to Cam Lo such a Headquarters could then be assigned responsibility for the Cam Lo and Huong Hoa (Cua) Districts. Hai Lang/Hai Linh, and Dong Ha/Gio Linh would also hold joint coordination responsibilities. Ideally, however, four additional Headquarters are required to meet the full need and promote efficient operations.

5. The sites listed in paragraph 2 above meet the criteria set forth in paragraph (10) of reference(c). Movement into Cam Lo and Huong Hoa (Cua) Districts will provide minimum U.S. presence in support of territorial forces; enable them to meet 1969 pacification goals; and, in the case of Cam Lo, permit undertaking
of the resettlement project in the Dau Binh area. The Lam Dang and Cam Vu CAPs would enhance the Cam Vu resettlement plan scheduled to begin in March 1969. The Hai Lang sites are in hamlets targeted for Phase 1 of the 1969 Pacification Plan. In addition their location near Route 555 and Gia Dang road will enhance security and further the major resettlement project in the coastal area. As noted in reference (a) Gio Linh faces a major refugee problem with the bulk of its population dislocated from their homes. Aid in this area is considered long overdue.

6. In view of the above, it is requested that available Combined Action Program assets be reexamined and priorities reconsidered with a view toward transferring up to 10 CAPs and 4 CACO headquarters to 4th CAG to meet present needs.

Subj: Revolutionary Development Teams

1. During February 1969, the Quang Tri Province 1969 Pacification Plan was revised in accordance with the directives of Saigon. The original four phase program was changed to two phases and the number of target hamlets greatly increased. RD Team assignments were then reevaluated to conform with the revised plan. The teams remained at their pre-TET locations through the lunar new year celebration but have now moved into the targeted hamlets.

2. The following CAPs are presently working with RD Teams:

<table>
<thead>
<tr>
<th>CAP</th>
<th>RD TEAM #</th>

</tr>
<tr>
<td>4-2-8</td>
<td>QT 15, 35</td>
</tr>
<tr>
<td>4-3-8</td>
<td>QT 23, 42</td>
</tr>
</tbody>
</table>

3. In coordination with the Province RD Advisor, the CACO commanders are serving as overseers for the RD effort in CAP hamlets. The goal of integrated military and Civic Action programs within each AOC is a reality at this time in some CAPs. Specifically, we are striving for mutual planning, integrated patrolling and security efforts, a complete and timely exchange of intelligence, joint psychological warfare campaigns, and coordinated civic action projects. To date we have encountered no serious problems. While we cannot claim that anything like full and effective integration is yet a reality, we are moving toward this goal and expect significant progress by mid-March.

4. An additional consideration in this effort is the role played by the village/hamlet leaders. In one or two areas we have sensed that RD Team leaders and village/hamlet officials are not in full agreement, nor are they making any effort toward cooperation. This complicates the task,
It appears that we will have to draw these officials as well into the joint effort to ensure that all are pulling toward common goals.

J. E. GREENWOOD
GUEST LIST FOR CHANGE OF COMMAND 4TH COMBINED ACTION GROUP 27 FEB 1969

MajGen Raymond G. DAVIS
BrigGen Robert B. CARNEY Jr.
Col Nguyen AA
Col Edward F. DASCHWITZ, AC/S CAP
LtCol Harley F. MOONEY, USA, PSA
Mr. Francis T. MCMAHON, DPSA
LtCol Edward L. LELIS, 2d CAG

Capt William H. BLAHA, CACO 4-2
1stLt John P. MURCHISON, CACO 4-3
ALL CAP LEADERS AND PF PLATOON LEADERS
CONFIDENTIAL

REMARKS OF LTCOL. J. E. GREENWOOD AT CHANGE OF COMMAND CEREMONY 27 FEB 1969

No Marine likes to give up his command -- be it a squad or a division -- for command of a Marine unit is something special. Least of all does he relish it if it has been his privilege to activate the command, to form it from scratch. He invariably feels it contains a part of himself and he is reluctant to say, "Goodbye". That is precisely the position I am in today. And as I saluted LtCol. FORD a moment ago and passed the reins of the 4th Combined Action Group to him, I felt all the pangs that come with departing from someone that is loved -- for something that has occupied all one's time, attention, and energy for several months.

But I leave with many warm and satisfying memories. I am intensely proud of the 4th Combined Action Group and of all that you have done during the past seven months.

I am intensely proud of your performance in combat. Our fights have been small ones, of short duration, but they have always been sudden, intense, and heated. You have met every challenge the enemy has offered, and you have acquitted yourself with abundant skill.

I am equally proud of the less dramatic, less newsworthy things that you have done. I am proud of your training effort, of what you have done to increase your own professionalism, and ensure that you leave behind you more capable defensive forces.

Most of all, I am proud of the quite, slow, often tedious work you have done in the field of pacification. It is work that makes few headlines, but it is work that is absolutely indispensable in this type of warfare. I will remember always some of the stories you have written in this field. There is the story of Thuong Xa -- a hamlet in which our enemy enjoyed much freedom through most of 1968. During an eight month period, we killed over 40 of them. Progress was slow -- almost imperceptible. But you stuck with it; you whittled away at a tough problem. Then in November, on the day before Thanksgiving, following a major cordon and search operation by the 3rd Marine Division, we closed the 4-2-1 compound and moved from the fringes across the river into Thuong Xa proper. Since that date exactly three months ago, there have been no enemy in Thuong Xa. Dozens of families have returned to their homes. A bridge has been built and the people have ready access to their markets in Quang Tri. Government officials have returned. Elections are scheduled for early next month. Nearly 4000 people are feeling the benefits of this pacification progress. This is an indispensable story; one that must be written in every hamlet and village in Vietnam before we win final victory. And it is being written right today in dozens of other hamlets throughout Quang Tri. I am intensely proud of these achievements and proud that I have been a small part of them.

The 4th Combined Action Group stands indebted to many people, and many of those to whom our debt is greatest are with us today;
CONFIDENTIAL

- Colonel AH, his staff, and his District Chiefs bear equal responsibility for whatever successes we have achieved.

- General DAVIS and the entire 3d Marine Division have treated us as one of their own since the 20th of July. I fear we are guilty of some shameful freelancing, but there has never been a word of complaint -- nothing but splendid understanding and support.

- From Colonel DANOITZ and the III MAF staff we have invariably received clear guidance and sound policy. It has been a beacon to follow and a crutch to support us in time of need.

- And last but not least, Colonel MOONEY and Advisory Team 19 with its staff and fine group of District Senior Advisors. They have kept our efforts integrated with the overall Province effort; they have helped us solve our problems; they have sung our praises.

To all of you my sincerest and warmest thanks.

And now to the officers and men of the 4th Combined Action Group, let me say, "Goodbye, best wishes, and Godspeed".

FAC C (Report for at) to PSYOPS Order 1-69

CAGG
4th Combined Action Group

FROM: Commanding Officer
TO: Commanding Officer, 4th Combined Action Group

SUBJ: Weekly PSYOPS Report

1. A new PSYOPS report is required by higher headquarters and additional information is required. Also the reporting period has changed to 0001 Friday through 2400 Thursday to be submitted by 1600 on Friday.

The following PSYOPS information is submitted for the period __________ to __________:

a. Number of total operations (Example: number of times posters are distributed, number of times leaflets are distributed, number of broadcasts conducted by AITs - a total of operations)

b. Number of hours devoted to all PSYOPS operations

c. Number of leaflets distributed and themes

d. Number of posters distributed and themes

e. Number of HLCAPS conducted

f. Total hours devoted to HLCAPS

g. Number of HLCAPS patients treated

h. Number of civilians attending movies

i. Number of hours movies were shown

j. Special operations: Narrative - (Use back side if necessary.)

J. F. Greenwood
Lieutenant Colonel, U.S. Marine Corps
Commander
